## AGGREGATES & CONSTRUCTION MATERIALS SUPPLY

Reliable Materials for Stronger Infrastructure

Our company supplies a complete range of construction aggregates and building materials required for infrastructure, commercial, industrial, and residential projects. We work closely with accredited quarry operators, manufacturers, and logistics partners to ensure high-quality materials, competitive pricing, and efficient delivery to project sites.

With our strong supply network and industry experience, we support contractors, developers, and government agencies by providing reliable material sourcing and logistics solutions for projects of any scale.

### Our PRODUCTS

#### Construction Aggregates

High-quality aggregates suitable for concrete production, road construction, and structural works.

- Crushed Gravel (G1, G2, G3)
- Washed Sand
- Filling Sand
- Base Course Materials
- Sub-base Materials
- Armor Rocks / Boulder Rocks
- Mixed Aggregates

#### Logistics & Delivery

Our company provides reliable hauling and transport services to ensure timely delivery of construction materials directly to project sites.

We support:

- Infrastructure Projects
- Road Construction
- Land Development Projects
- Commercial & Residential Developments
- Government Projects (LGU, DPWH, Contractors)

Our logistics partners and hauling fleet allow us to deliver materials efficiently and safely across project locations.

#### Concrete & Structural Materials

- Cement
- Ready Mix Concrete (Various Strength Grades)
- Fine and Coarse Aggregates
- Concrete Admixtures (upon request)

#### Earth & Land Development Materials

- Backfill Materials
- Selected Fill
- Embankment Materials
- Topsoil

#### Other Construction Materials

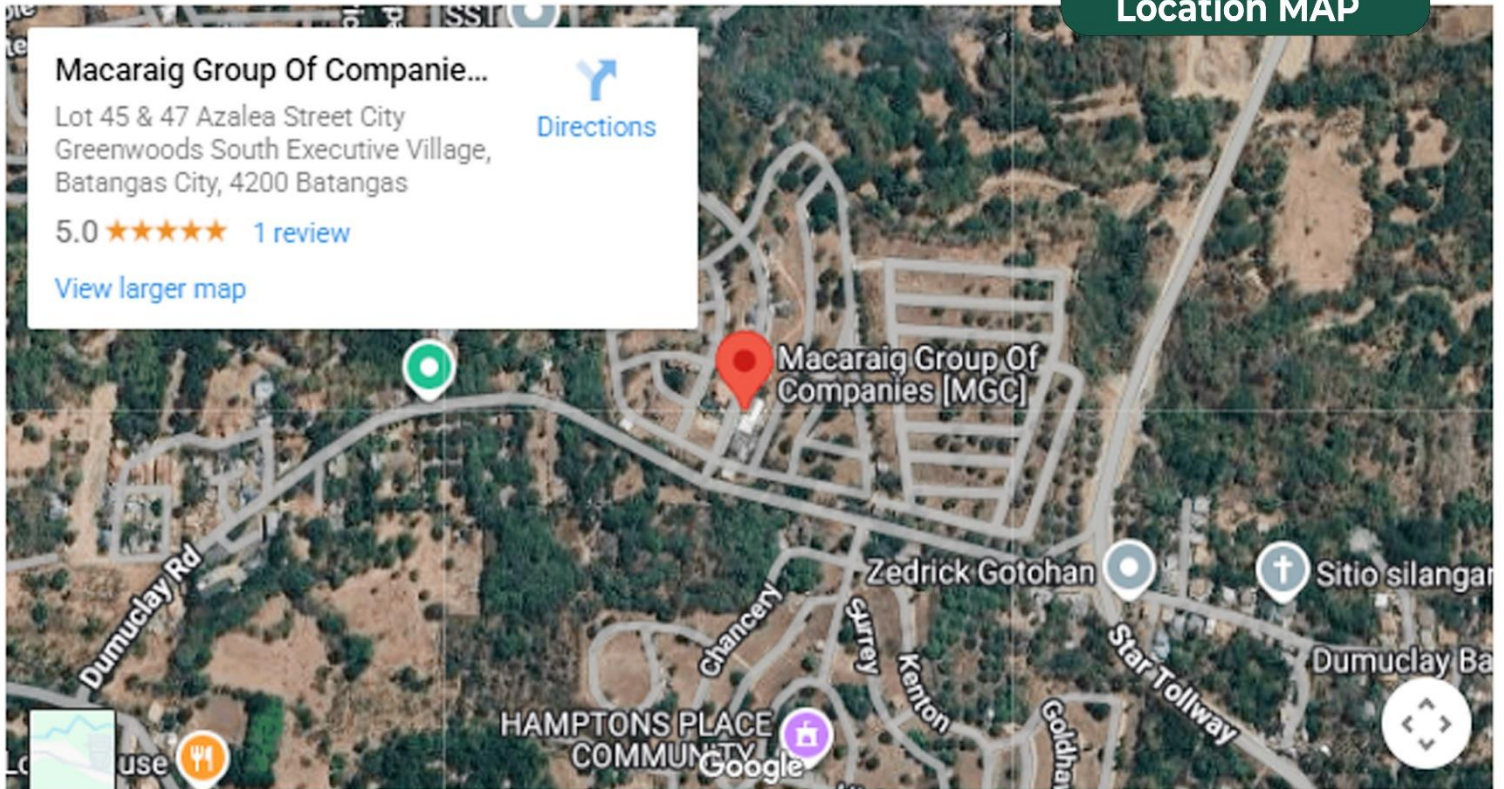

- Concrete Hollow Blocks
- Reinforcing Steel Bars (Rebars)
- Geotextile Materials
- Drainage Pipes
- Riprap Stones
- Formworks and Other Construction Supplies

#### Quality Compliance

We are committed to providing materials that meet industry and government standards.

- ✓ Materials sourced from authorized quarry operators
- ✓ Compliance with DENR environmental regulations
- ✓ Quality suitable for public and private infrastructure projects
