# COMPANY PROFILE

---

# MACARAIG

CONSTRUCTION & DEVELOPMENT CORP.

*Building Wealth. Building the Future.*

## COMPANY OVERVIEW

Macaraig Construction and Development Corporation is a newly established construction firm poised to bring a fresh, innovative approach to infrastructure development in the Philippines. Focused on horizontal and vertical construction, environmental facilities, and land development, we are committed to creating projects that combine engineering precision, environmental responsibility, and long-term community value.

### MISSION

To deliver reliable, sustainable, and innovative construction and development services that exceed client expectations and contribute to long-term environmental and community well-being.

### VISION

To become one of the most trusted and forward-thinking construction firms in the country, recognized for quality, integrity, and sustainable practices.

# Our Core Commitments

To ensure the highest level of quality, we focus on four primary pillars:

## Customer Satisfaction

We listen to our clients' needs and deliver bespoke solutions, ensuring every project is completed on time and within budget.

## Operational Excellence

We integrate rigorous quality control measures at every stage—from the procurement of raw materials to the final handover of construction projects.

## Regulatory Compliance

We pledge to meet or exceed all local and international statutory requirements, building codes, and industry standards (such as ISO 9001:2015).

## Continuous Improvement

We treat every challenge as a learning opportunity, regularly auditing our processes to enhance efficiency and minimize waste.

## Quality Objectives

### Sourcing Integrity

To partner only with verified suppliers who meet our strict quality and ethical benchmarks.

### Safety First

To maintain a zero-accident record on all construction sites through proactive risk management.

### Workforce Empowerment

To provide ongoing training to our employees, ensuring they remain at the forefront of technical and safety innovations.

### Resource Efficiency

To optimize material usage in trading and construction to promote sustainability and cost efficiency.

# Health, Safety and Environmental (HSE) Policy Statement

## Our Commitment

At Macaraig Construction & Development Corp. we believe that excellence in health, safety, and environmental performance is core to our business success. We are committed to conducting our operations in a manner that protects the health and safety of our employees, contractors, and the public while minimizing our impact on the environment.

## Core Objectives

To achieve this commitment, we will:

- ✓ **Zero Harm**  
Strive for an incident-free workplace where “Goal Zero” is the standard for injuries and illnesses.
- ✓ **Compliance**  
Meet or exceed all applicable local, state, and federal HSE laws and regulations.
- ✓ **Risk Management**  
Systematically identify, assess, and mitigate workplace hazards before they result in incidents.
- ✓ **Sustainability**  
Reduce our carbon footprint through waste reduction, energy efficiency, and responsible resource management.

## Accountability

Management is responsible for providing the resources and leadership to uphold this policy. Employees are responsible for following established procedures and reporting all hazards or near-miss incidents immediately.

## Guiding Principles

### Personal Responsibility

Every employee is responsible for their own safety and the safety of those around them.

### Stop Work Authority

Every individual has the right and the obligation to stop any task they deem unsafe without fear of retaliation.

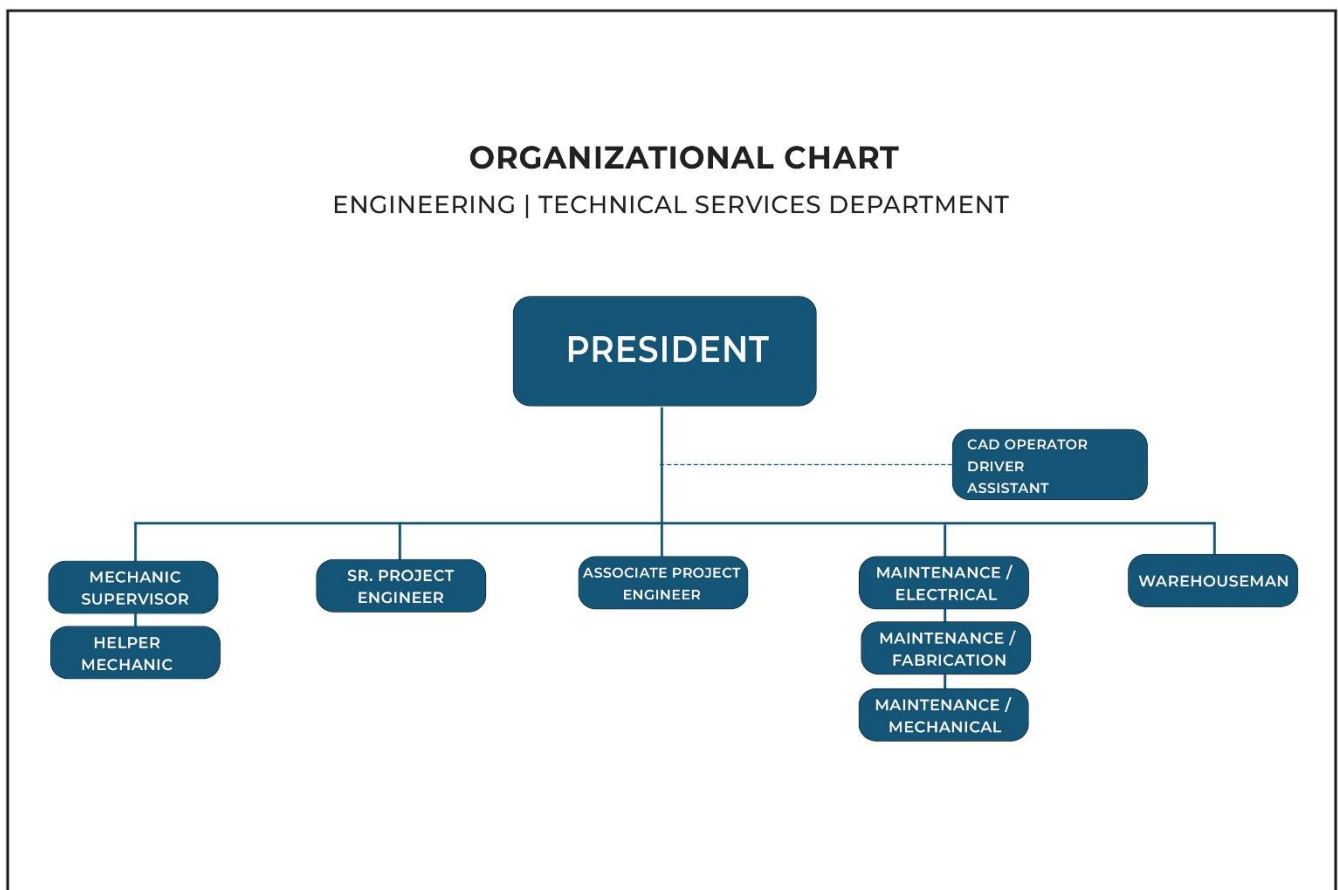

### Continuous Improvement

We will regularly review our HSE performance metrics and update our processes to ensure we are evolving with industry best practices.

### Training and Competency

We ensure all personnel are equipped with the knowledge, tools, and training necessary to perform their work safely.

## Our Services

### SLF & TSD Development

To engage in the general development, construction, rehabilitation, operation and maintenance of sanitary landfill and TSD facility treatment such as a wastewater treatment plant, leachate pond, sewage treatment plant and material recovery facility.

### Project Construction and Management

**Civil Works** (Road, Building, and Bridge Construction)

**Mechanical Works** (Supply and installation of mechanical equipment like generator, gas compressor, pump, and motor.)

**Electrical Works** (Supply and installation of electrical transformer, motor control panel, low and medium end voltage, and electrical equipment.)

### Logistics & Transportation

To engage in, operate, and conduct the business of logistics and transportation services, including but not limited to the trucking and hauling of goods, cargo, materials, and equipment of every kind and description, whether for commercial, industrial, or personal use; to own, lease, manage, maintain, and operate trucks, trailers, utility vehicles, and other transport units.

### Heavy Equipment Rentals

To engage in the rental, leasing, and operation of heavy equipment, such as but not limited to cranes, forklifts, backhoes, bulldozers, excavators, loaders, dump trucks, and other construction and industrial machinery, with or without operators.

## Maintenance & Repair

To engage in the upkeep and repair of industrial plant equipment such as powerplant generators, gas compressors, medium to high voltage motors, pump turbines, heating ventilation and air conditioning (HVAC). This includes the supply of skilled manpower, tools, and supervision.

## Motorpool Services

To establish, operate, and manage motorpool services, including fleet management, dispatching, maintenance, repair, and servicing of motor vehicles and heavy equipment for its own account or for third parties.

## ManPower Supply

To support and promote the supply of skilled manpower by providing training, development programs, capacity-building initiatives, and related services aimed at enhancing workforce competence, improving employability, and contributing to economic and industrial growth.

## Tools & Equipment

### Mechanical

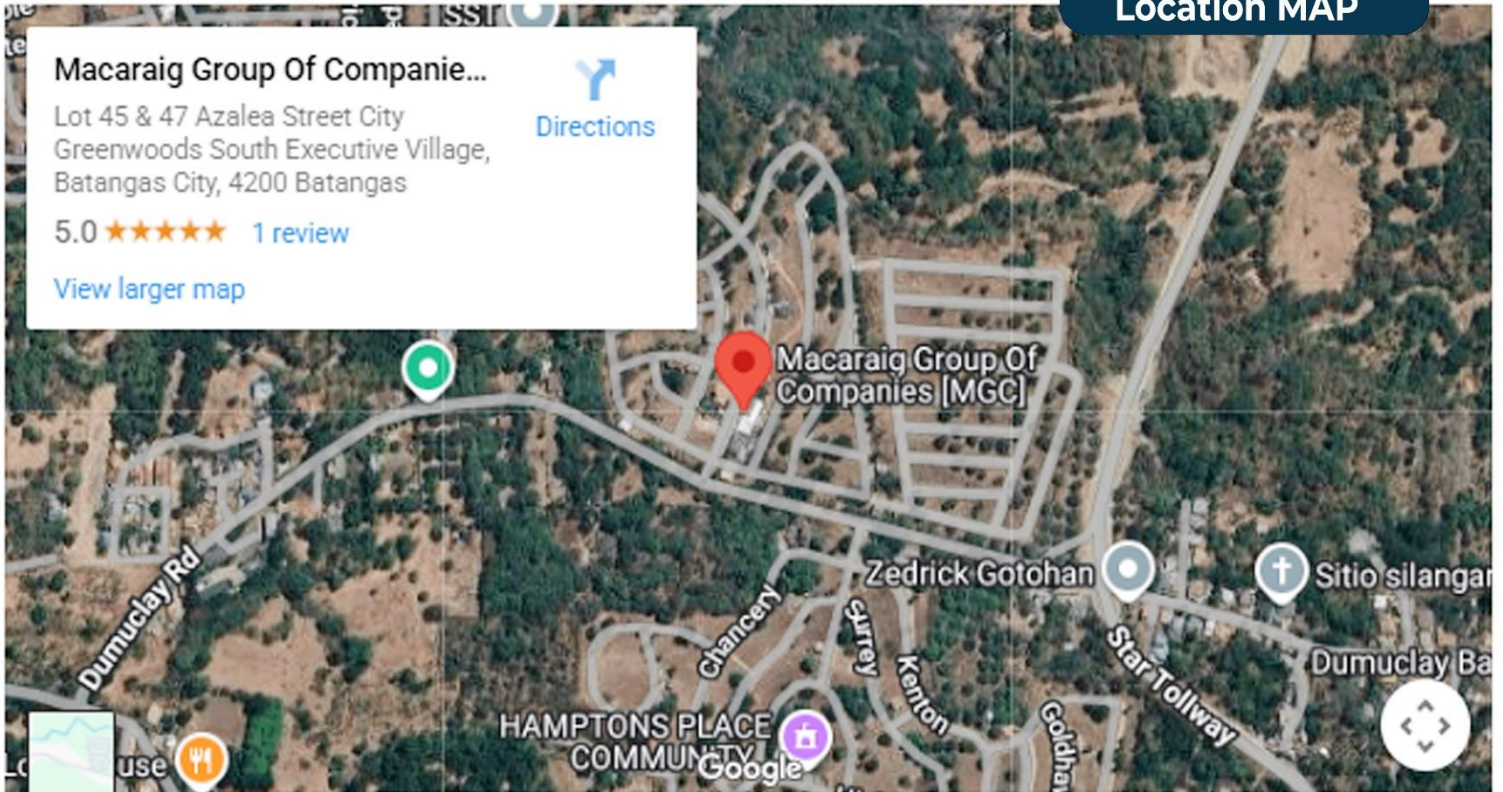

- Vibration Monitoring
- Torque Wrench
- Allen Keys
- Impact Wrench
- Angle Grinder
- Hydraulic Jack
- Bearing Heater
- Bearing Puller
- Caliper
- Micrometer

### Electrical

- Fluke 87 Multitester
- Mega Ohmmeter
- Ammeter
- Pliers
- Screw Drivers
- Adjustable Wrench
